

Forensic Accounting: Fraud Lunch & Learn

Event Summary:

Fraud is a serious threat to payment system efficiency, consumer confidence, and a community bank's bottom line. To mitigate risk, banks have to keep pace with new and existing schemes while monitoring the effectiveness of their fraud prevention tools. During this session, attendees will learn about common fraud schemes and what red flags to look for in businesses. This event will provide some high-level testing techniques that can be applied when analyzing financial statements to help identify fraud. Real case examples will be discussed to show how this knowledge can be applied.

Speaker:

Brett A. Johnson is a Forensic Accounting Senior Manager at Eide Bailly, LLP. With more than 10 years of experience providing forensic accounting and investigative services to a variety of industries. He specializes in providing fraud detection, investigation and prevention consulting services to clients. Brett received his Bachelor of Science degree in Accounting and

Fraud Investigation from North Dakota State University. His certifications include: Certified Public Accountant, Certified Fraud Examiner, Certified in Financial Forensics, Certified Forensic Interviewer and Private Investigator.
