Subject: RMA Oklahoma chapter: Upcoming Audio Conference and Educational Class

Greetings,

The RMA Oklahoma chapter is starting 2016 with two timely and informative educational opportunities:

Construction Lending and HVCRE: Key Issues

RMA Audio Conference
February 9, 2016
Time: 11:30 to 1:30 p.m.
OKC: Bank SNB, 6301 Waterford, OKC
Tulsa: Spirit Bank, 1800 S Baltimore Ave, 1st Floor, Tulsa
Cost: \$15.00 (lunch is included)

Construction lending and multifamily development continue to generate demand making the turn cycle slower than anticipated and causing a potential strain on the demand-supply balance. Making things more complicated are the HVCRE capital rule requirements. Listen to senior policy and real estate bankers as they share management and reporting strategies. Discussion time among attendees is planned before and after the call to educate lenders and underwriters on HVCRE rules and how it can affect their deal structures as well as tracking and implementation procedures. A discussion you won't want to miss!!!

In addition, enroll now for next educational class co-sponsored by RMA and the chapter:

Business Writing for Bankers

February 4, 2016
Midfirst Bank,
5701 N Shartel Ave, Ste 101 Rm 3, OKC

The course will focus on skills needed to write an effective credit memorandum. Learn techniques for creating, analyzing, improving and reviewing your own credit write-ups. See attached flyer for more details.
